ABOUT ME

I'm a passionate Cloud, DevOps, and Cybersecurity engineer with extensive experience in building, automating, and securing scalable systems. My expertise spans across Linux system administration, cloud infrastructure deployment, and implementing robust security practices.

I specialize in containerization with Docker, orchestration with Kubernetes, and automating deployment pipelines. My focus is on creating secure, efficient, and scalable cloud solutions that drive business value.

EDUCATION

Master of Computer Applications - Parul University - Cloud Computing 2024-2027
CGPA: 8.40

Bachelor of Computer Applications - Parul University - Cyber Security 2018-2019
CGPA: 8.40

SKILL

- Linux Server Management
- Network Configuration & Firewall Management
- Digital Illustration
- Web Application Security
- Cloud Deployment (AWS / Local Server)
- Automation & Scripting

WORK EXPERIENCE

Web Developer Intern - Arth Consultancy

NOVEMBER 2023 – MAY 2024
6 MONTHS

Worked as a Web Developer Intern at Arth Consultancy, where I developed a fully functional Food Ordering Website using PHP, HTML, CSS, and JavaScript, integrated with Razorpay for live payment processing. Focused on building a responsive UI, secure user authentication, and seamless order management system. Collaborated with the team using Git for version control and implemented best practices in code optimization and web security.

Technologies Used:

PHP, MySQL, JavaScript, HTML, CSS, Razorpay API, Git, Tailwind, CSS

PROJECT

CLOUD SERVER

A locally hosted cloud server built with Python to simulate scalable cloud environments and DevOps automation.
